FLAT

EGGSHELL

SATIN/SILK

LO-LUSTER/SEMI-GLOSS

GLOSS

A Painter's Guide to SHEEN SELECTION Interior / Exterior

Flat provides a soft, non-reflective finish hides minor surface imperfections. A traditional finish for interior walls and exterior siding.

Eggshell provides a soft, low sheen finish that hides surface imperfections like a flat, but with increased durability and washability over traditional flat finishes.

Use **satin** or **silk** to create a rich, velvety all-surface finish is scuff and mark resistant on walls and trim. Perfect for any room or style. Improved exterior durability over flat finishes.

Low-luster or **semi-gloss** is a shiny finish that provides decorative contrast with flat, eggshell or satin/silk. Highly resistant to wear from washing or weathering

Gloss is a very shiny and reflective finish for bold, decorative accents or where maximum durability is desired.

Gloss level of colour chips is shown at a 60° viewing angle. Gloss level and colour may be affected by texture, porosity of the surface and atmospheric conditions.
